CONSTIPATION
The frequent cause of Appendicitis and many other serious ailments should never be neglected. Not His Fault.

Stater Rustler.

The death of Col. W. R. Gist removes one of the few remaining landmarks of that class of Southern gentlemen who were raised in luxury, given a classical education, but who were sadly neglected by not being thrown on their own responsibilities when young and taught by experience the value of economy and the respectability of labor. Colonel Gist possessed the dignity and chivalry that is characteristic of the South, but in the qualifications necessary for success in business he was almost as deficient as a child, yet it was no fault of his. It was due to errors taught in early life that brought him, with all his education and refinement, to a pauper's grave. His life cannot be considered a failure, for the reason that he failed to provide for himself sufficient to keep the wolf from the door in his declining years. He had many excellent traits of character which have been impressed on those with whom he associated, and he, with all his faults, will be kindly remembered by those who knew him best.

Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
